# MAKING ANIMALS FROM PRINTS

Age category: 6- 12 years

Authors: Moraru Ovidia Monica

### **Competences:**

- The students will know the necessary materials for making animals from prints •
- The students will learn how to paint animals through prints
- The students will learn to appreciate art and they will develop their creativity and artistic imagination

# Competences according to European curriculum:

http://eur-lex.europa.eu/legal-content/EN/TXT/?uri=LEGISSUM%3Ac11090

# Formative assessment:

- Explaining the steps for making an animal from prints
- Indentifying instruments and materials needed to make animals from prints
- Enriching the students' knowledge about animals

# Summative Assessment:

Making animals from prints with the help of instruments and materials which are easy for children to find

# Specific vocabulary list/Keywords:

Prints, painting, watercolors, pictures with animals

# Short description of the educational context/scenario:

The students and the teacher watch the video "Fingerprint Animals". The teacher and the students have a conversation about creating paintings with animals by using their fingerprints. Two of the students talk about how much they love animals and how they would like to create small animals through drawing and painting. The stundets explain in sign language the steps of making animals through prints and what materials and instruments are needed for this purpose. Then, the teacher will hand the educational sheets to the students so they can verify and enrich their knowledge about animals and arts in general. The teacher supervises and guides the students.
